in 2017

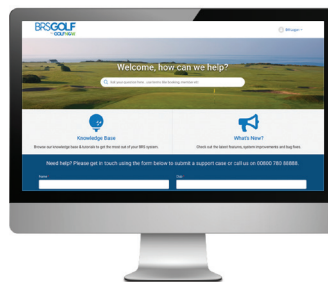

The BRS Golf Admin Module makes up the core of BRS Golf's Tee Booking System and allows your office and pro shop staff to manage all types of bookings.

Key benefits

- Flexible tee time intervals
- Improve internal communications at your club
- Break away from time consuming diary systems and save significant staff hours
- Capture golfer info and build your marketing database through the tee sheet
- Automatically generate emails and letters for members and visitors
- Update your privacy policy, write terms and conditions and define your marketing preferences
- Maximise course usage without impacting members
- Manage services, buggies and food and beverage associated with bookings
- Full BRS Golf team support via live chat, email or phone
- Supports multiple users who can log in from any location, see availability and book

Members' frequently asked questions

Why is the club moving to online bookings?

Times have changed in the golf world. Years ago, clubs charged joining fees and had wait lists. Now, in order to turn a profit, clubs need to utilise their two biggest assets – the clubhouse and the golf course. Member clubs can still give priority to their members and protect tee times with BRS Golf. To do this they need a tee sheet to understand golfers' playing habits. BRS Golf also allows clubs to connect to distribution sites GolfNow and Teeofftimes by GolfNow.

“ In the past I could easily spend an hour on the phone handling booking requests on busy days, and that simply does not happen anymore. I can now spend more time with members and visitors who are in the shop, and we are delighted to improve our service level in this way. ”
