

Printer Module

The Printer Module is an inexpensive add-on to the core BRS Golf modules that enables full automation of the check-in process, including bag tag label and receipt printing.

Key benefits

- Quick and easy to install
- Saves time at check-in with printed or pre-printed receipts or bag tag labels
- Labels or receipts can be printed prior to arrival and display all relevant information (names, tee time, date, green fee, payment, outstanding balance, number of players and buggy reservation)
- No expensive hardware required – Dymo printers are readily available
- Eagle promotion scorecards are compatible with bag tags and receipt labels
- Printer compatible with a choice of three standard label sizes
- Replaces the need to stock and manually write expensive visitor green fee tickets

Members' frequently asked questions

Will what works at one club work here?

There are many variables and parameters within the system, which you can adjust to suit your club's requirements. When you introduce the system, ask for feedback from members and if you need adjustments, relay back to the BRS Golf team so we can ensure the system is fine tuned to meet your club's specific requirements.

“ This has been one of the most successful initiatives we have undertaken in the 25 years that I have been here. I would have no hesitation in recommending BRS Golf, and I know that many local clubs are now also very satisfied BRS Golf customers. ”
